

Network Center for Earthquake, Tsunami and Volcano, National Research Institute for Earth Science and Disaster Resilience Application Form for Using Core Samples / Earthquake Observation Facilities		
Purpose		
Details of Usage (Description of Research)		
Specimen to be used (Expected)	Location	
	Part Depth Quantity etc.	
User (if a student, also provide supervisor)	Name	
	Affiliation	
	Contact	
Notes		
2020/MM/DD		
<p>Pertaining to the usage of core samples, I agree to comply with the following:</p> <ol style="list-style-type: none"> (1) Core samples are not to be used except for the stated objectives. (2) If using core samples for tests, measurements etc., any remaining portions are in principle to be returned. (3) If borrowing samples temporarily for exhibits, samples must be promptly returned after usage, in the exact same condition they were in before borrowing. (4) For use in publication of research results, prior consultation with person in charge at NIED is mandatory. (5) When using core samples in publication of research results, clearly acknowledge the fact of using NIED's core samples. (6) For any other matters or queries, consult with person in charge at NIED. 		
<p>Precautions</p> <ol style="list-style-type: none"> (1) After receiving an application, we will consider providing core samples after determining the appropriateness of the purpose and method of usage, amount, and particulars of usage. When filling out the application form, where necessary, please append additional materials as references to the contents of the application. (2) In light of the burden involved in providing core samples, in principle usage is limited to joint research. This does not apply to temporary lending for exhibitions etc. (3) Regarding sampling of core samples and transportation schedule, handling of specimens etc., please consult and comply with the instructions of the researcher in charge at NIED and exercise the highest level of care. (4) In principle, expenses required for sending samples and expendables shall be the responsibility of the user. (5) In principle, the period of usage for core samples will be up to one year. For periods longer than one year, it will be necessary to re-submit application form for usage and usage plan. (6) Processes for extraction and transportation of core samples shall in principle be conducted by the user, under the supervision of the researcher in charge at NIED.

Notes		

2020/MM/DD

Pertaining to the usage of core samples, I agree to comply with the following:

- (1) Core samples are not to be used except for the stated objectives.
- (2) If using core samples for tests, measurements etc., any remaining portions are in principle to be returned.
- (3) If borrowing samples temporarily for exhibits, samples must be promptly returned after usage, in the exact same condition they were in before borrowing.
- (4) For use in publication of research results, prior consultation with person in charge at NIED is mandatory.
- (5) When using core samples in publication of research results, clearly acknowledge the fact of using NIED's core samples.
- (6) For any other matters or queries, consult with person in charge at NIED.

Precautions

- (1) After receiving an application, we will consider providing core samples after determining the appropriateness of the purpose and method of usage, amount, and particulars of usage. When filling out the usage plan, where necessary, please append additional materials as references to the contents of the application.
- (2) In light of the burden involved in providing core samples, in principle usage is limited to joint research. This does not apply to temporary lending for exhibitions etc.
- (3) Regarding sampling of core samples and transportation schedule, handling of specimens etc., please consult and comply with the instructions of the researcher in charge at NIED and exercise the highest level of care.
- (4) In principle, expenses required for sending samples and expendables shall be the responsibility of the user.
- (5) In principle, the period of usage for core samples will be up to one year. For periods longer than one year, it will be necessary to re-submit application form for usage and usage plan.
- (6) Processes for extraction and transportation of core samples shall in principle be conducted by the user, under the supervision of the researcher in charge at NIED.
